REMARKS

The Official Action of November 28, 2006, and the prior art cited and relied upon therein have been carefully studied. The claims in the application remain claims 1-15, and these claims define patentable subject matter warranting their allowance. Favorable reconsideration and such allowance are respectfully urged.

Claims 1-15 remain in the application for consideration.

In response to the Examiner's objection to the drawings, specification and claims, Applicant has amended each to eliminate all of the problems identified by the Examiner. Applicant has also amended the abstract to provide for better clarity. Applicant respectfully submits that the Examiner's objections have now been overcome.

Applicant thanks the Examiner for his indication that claims 1-15 have been allowed. Having overcome the Examiner's formal objections, Applicant respectfully submits that this application is now in condition for allowance.

The prior art documents made of record and not relied upon have been noted along with the implication that such documents are deemed by the PTO to be insufficiently

Appln. No. 10/522,763
Amdt. dated January 25, 2007
Reply to Office Action of November 28, 2006

pertinent to warrant their applications against any of
applicant's claims.

Favorable reconsideration and allowance are
earnestly solicited.

Respectfully submitted,

BROWDY AND NEIMARK, P.L.L.C.

Amendments to the Abstract

Please amend the abstract as follows:

--ABSTRACT

Device (12) for counting shots fired by an automatic firearm (11), ~~comprising~~ having a cartridge chamber containing a cartridge that can be expelled through an expulsion window, ~~comprising~~ and a first emission means that emits a continuous electromagnetic signal in such a manner that it is interrupted by a casing expelled from the cartridge chamber ~~and~~ ~~corresponding~~ which corresponds to the used cartridge. The shot-counting device (12) of the invention is capable of monitoring the number of casings expelled from a cartridge chamber of the firearm (11) via an expulsion window and showing, on a display screen, the corresponding number of shots left available in a magazine (13) fitted to the firearm (11).
